

Virtual Office Mobile App

Be as productive on the go as you are in the office with 8x8's Virtual Office mobile app for iOS and Android devices.

Get connected with your business number—even from your personal (BYOD) mobile devices—with Wi-Fi, cellular data or cellular voice plans. Your Caller ID even displays your office phone number!

Have access to full unified communications capabilities, including your corporate directory, presence, chat, voicemail and full communications history.

- **Save money**—Make calls using your 8x8 calling plan and save on long distance and international calls
- **Flexibility**—Use Wi-Fi, cellular voice or cellular data plans
- **Save on international roaming**—Avoid data roaming charges when outside the UK; make and receive calls from your UK work number using Wi-Fi. Since you will be using your 8x8 calling plan, you won't be paying expensive international roaming charges
- **Supports iOS and Android multi-tasking**—Allowing you to surf the web or listen to music while never missing a call

Mobile App Features
